

JRH

Electronics, LLC

For more than 30 years JRH Electronics has been an authorized distributor of high quality, mission critical, harsh environment, high reliability, interconnect, switch, sensing, resistive, and heat shrink products. Our lines are the industry leaders in all our segments. As an authorized distributor, an AS9100 certified supplier with access to more than \$60 million worth of inventory, and an SBA-certified SDVOSB, JRH is uniquely poised to help you meet set-aside spending goals and minimize your costs. JRH is committed to continuing to provide best value to our customers and we look forward to assisting you with best-in-class customer service.
